

## Advice of Mother to Son Has Ever-New Meaning

BY RALPH L. BRUNSON  
Gen. Sec., Federation, K.S.  
YMCA

"Study to show thyself approved."

This statement seems to me rather timely and appropriate. This Biblical passage holds meaning to almost every age. Its truths have been and will continue refreshing and enduring throughout the ages.

When I was about 12 years of age, I recall my minister telling a story of a young man leaving his home town aboard a train taking him off to war. His mother and father were talking to him up to the last minute of his departure.

The young man, with his suitcase in hand, boarded the train, walked down the aisle, and found a seat next to a window. He opened the window, looked out to his mother and father, and waved as the train pulled away. The mother pulled away. The mother pulled away. The mother pulled away.

The boy called back to her "What did you say, Mother?" She yelled again. If Timothy 2:15 she repeated this several times endeavoring to get him to understand what she was saying.

He finally recognized what she was trying to say and wrote it on a piece of paper to be sure he didn't forget. As the train pulled out of the station, he

## RUSSIA CAN'T GARBLE THIS MESSAGE

Behind the iron curtain is a powerful transmitter which tries to garble the messages which come from the free world.

We like to think that no one can garble the prayer of a little child to his God. But sometimes, right here in a free Christian land, we jam the wave-lengths of faith with examples of doubt and indifference. Even parents occasionally stifle the spiritual yearnings of their own children!

One of our freedoms is FREEDOM OF WORSHIP. In the sight of God, and before the eyes of a growing generation of free Americans, what shall we do with this freedom?

There has never been a day when Christian sincerity in the community, Christian example in the family, and Christian devotion in the individual were more essential for the preservation of our spiritual heritage to another generation!

Come to Church—join the Church—support the Church.

## FARM PRODUCTS REPORT ISSUED BY STATE BODY

Cabbage for harvest this year, estimated at 800,000 acres, shows a 100 acre decrease from 1957. Unfavorable weather conditions during March, lowered yields prospects to 100 cwt. acre. Total indicated production for the State is forecast at 80,000 cwt., 15 per cent less than a year earlier, according to the Alabama Crop Reporting Service.

**Snapeans**  
The 1958 mid-spring crop is presently set at 700 acres as compared to 800 for the previous year. Cold weather excessive rains during the planting season are partially responsible for this reduction. Indicated yield will be forecast on May 9.

Indicated acreage for the harvest this year totals 900 acres, 30 acres less than last year. During several previous years, strawberries have been on blooms earlier than normal and were killed back by a re-freeze. Most plants remained dormant this year until the danger was over. Few blooms were killed and an average yield of 2,100 pounds per acre is indicated. Total production is expected to reach 1,800,000 pounds, slightly less than last year's total of 1,900,000 pounds.

**Eggs**  
Production of eggs on Alabama farms during March totaled 81 million, an increase of 21 per cent over the previous month and approximately 3 per cent above March 1957. The number of layers on farms during the month at 4,538,000 reflects a decrease of 3 per cent from the previous month, but is 6 per cent above the number of farms during March last year. The monthly number of eggs per layer increased from 13.44 in February to 16.74 in March and compares with 17.27 during March 1957.

During the first three months of 1958 the total number of eggs produced was 220 million. This compares with 216 million produced during the corresponding period last year. At mid-month, the average price received at the farm level for eggs was 45.1 cents per dozen, up slightly from the previous month and up sharply from March 1957. Farm chickens averaged 15.0 cents per pound, unchanged from February and 2 cents per pound below March last year. Commercial broiler prices averaged 20.0 cents per pound, up 1 cent from the previous month and up 15 cents from March 1957.

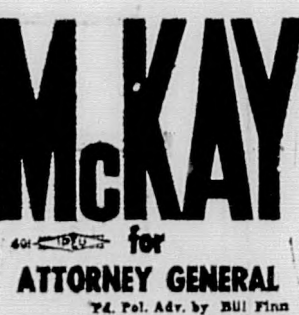

The chicken - feed and turkey - feed ratios at 4.0 and 6.7 respectively were less favorable than the previous month. The egg - feed ratio at 12.1 was less favorable than the previous month, but was more favorable than a year ago. The broiler - feed ratio at 4.1 was more favorable than the previous month and more favorable than last March.

standing leaders in every field spent the whole week visiting the classes, talking to the students and forming opinions as to the merit of the school. The next aspect of the whole thing, to us at least, was getting to know Mrs. King of Lee High School in Montgomery and Mrs. Laura Gains Sprott of Troy, who evaluated the English department and library respectively.

Mrs. Sprott made suggestions and recommendations in her soft voice and inspired even my library assistants to constructive activity. Mrs. King walked on crutches but her spirit soared on wings. She has left us all with a determination to be better teachers, as well as interesting ones. She truly can be called "Educator."

We will know the results of this examination in the fall.
